Custom Tool Development

Experience

JAN 2026

Independent & Freelance

Now taking on freelance technical art, tool development, and pipeline consulting work.

JUL 2023

Senior Technical Artist

Promoted to senior. Led procedural tooling initiatives spanning Houdini and Unity across two projects.

FEB 2021

Junior Technical Artist

Hired full-time. Shipped the rigging pipeline for the studio's first commercial title.

JUN 2019

First Internship

Joined a small indie studio as a technical art intern, building shader and rigging tools for a two-person team.

SEP 2018

Formal Training

Enrolled in a game art program, specializing in character rigging and technical art fundamentals.

MAR 2016

First Steps in 3D

Discovered Blender through game-modding communities and started teaching myself modeling and rigging basics, one broken shader at a time.
