PROFESSIONAL SUMMARY

3D Artist. Technical Artist with hands-on experience in 3D rigging, procedural tooling, and pipeline development for games — from a first internship through to a Senior Technical Artist role, now working independently on freelance and contract projects. Specializes in Houdini and custom Blender/Unity tooling.

TECHNICAL SKILLS

Languages	Python
Software	Blender, Unreal Engine, Unity, Houdini, Zbrush
Specialties	3D Rigging, Node, Custom Tool Development

PROFESSIONAL EXPERIENCE

Independent & Freelance	<i>Jan 2026 – Present</i>
Now taking on freelance technical art, tool development, and pipeline consulting work.	
Senior Technical Artist	<i>Jul 2023 – Jan 2026</i>
Promoted to senior. Led procedural tooling initiatives spanning Houdini and Unity across two projects.	
Junior Technical Artist	<i>Feb 2021 – Jul 2023</i>
Hired full-time. Shipped the rigging pipeline for the studio's first commercial title.	
First Internship	<i>Jun 2019 – Feb 2021</i>
Joined a small indie studio as a technical art intern, building shader and rigging tools for a two-person team.	

EDUCATION

Formal Training	<i>Graduated 2018</i>
Enrolled in a game art program, specializing in character rigging and technical art fundamentals.
