PROFESSIONAL SUMMARY

3D Artist. Technical Artist with hands-on experience in 3D rigging, procedural tooling, and pipeline development for games — from a first internship through to a Senior Technical Artist role, now working independently on freelance and contract projects. Specializes in Houdini and custom Blender/Unity tooling.

TECHNICAL SKILLS

Languages	Python
Software	Blender, Unreal Engine, Unity, Houdini, Zbrush
Specialties	3D Rigging, Node, Custom Tool Development

PROFESSIONAL EXPERIENCE

Independent & Freelance

Jan 2026 – Present

- Now taking on freelance technical art, tool development, and pipeline consulting work.

Senior Technical Artist

Jul 2023 – Jan 2026

- Promoted to senior. Led procedural tooling initiatives spanning Houdini and Unity across two projects.

Junior Technical Artist

Feb 2021 – Jul 2023

- Hired full-time. Shipped the rigging pipeline for the studio's first commercial title.

First Internship

Jun 2019 – Feb 2021

- Joined a small indie studio as a technical art intern, building shader and rigging tools for a two-person team.

EDUCATION

Formal Training

Graduated 2018

- Enrolled in a game art program, specializing in character rigging and technical art fundamentals.
